

The Ministry of Education have bus routes that are affected by this resealing and have been working with the Transport Service Providers who deliver our service and Fulton Hogan so as we can minimise the disruption.

There will be some disruption and rerouting of the affected routes and we ask for your understanding that the service will be different over this period. Fulton Hogan have tried to accommodate us as much as possible to minimise the impact.

Below is a table of the affected routes and the arrangements that have made to be able to deliver our Ministry service and the SBL service from Motueka as effectively as possible.

Fulton Hogan have advised of the that in general the road is open for south bound traffic, it is the north bound traffic that is affected. (Richmond to Motueka). They have advised us of the following proposed detour routes for north bound traffic, the highway will still be open for Nelson Bound traffic.

For the section of sealing of Maisey to Mapua we are proposing to use the Moutere Highway & Gardner Valley Rd as a detour route for Mapua/Motueka bound traffic.
For the other section we are proposing to use Harley Rd, Moutere Highway/Main Rd Lower Moutere & Wildman/High St for Motueka bound traffic to get back to the highway at the High St/Wharf Rd RAB.

Where required Fulton Hogan will escort the bus through however, we have kept that to a minimum.

In the table below when it states we will use the detour these are the roads that will be used.
